

Implementing ISO 45001:2018 and OSHMS in Construction

INTRODUCTION

The course provides an understanding on ISO 45001:2018 standard and its interpretation and application in construction to prevent work-related injury and ill health. Appreciation of the new requirements in ISO 45001:2018 standard is conveyed through examples, illustrations, sharing and practice sessions. Upon attending the course, participants will have better understanding how to implement ISO 45001:2018 and OSH management system (OSHMS) in their organisation and projects.

Transition process, OSHMS documentation and implementation, auditing and certification to ISO 45001:2018 standard will be discussed during the training.

OBJECTIVES

- Understand the ISO 45001:2018 standard;
- Interpret and apply the requirements of ISO 45001:2018 standard;
