

## Implementing ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 and Integrated QESH Management System in Construction

### INTRODUCTION

The one-day course delivers an insight into documenting and implementing an integrated QESH management system by adopting best practices in ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 standards for your organization and projects.

The three widely recognised international standards provide the framework for establishing an Integrated QESH Management System for your organization to manage quality, sustainable construction, safe construction at your projects. Clients are expecting construction companies to have the capability to manage QESH on their projects. Certification to the standards provides assurance to clients.

### OBJECTIVES

- Understand and apply Integrated QESH management concepts and principles
- Understand the ISO 9001, ISO 14001 and ISO 45001 standards
- Interpret and apply the requirements in your organization and projects
- Learn how to document, implement and certify your QESH management system

### CONTENTS

- ✓ Introduction to ISO 9001, ISO 14001 and ISO 45001 standards
- ✓ The ISO 9001, ISO 14001 and ISO 45001 standard explained and application in construction
- ✓ Documenting Integrated QESH management system, implementation and certification process
- ✓ Practice sessions, Sharing and Discussion
