

## QLASSIC HANDS-ON WORKSHOP (In-house Training)

### INTRODUCTION

The one day workshop will provide hands-on experience on how to apply quality standards and conduct QLASSIC assessment using the QLASSIC tools and assessment methods prescribed in CIS 7:2014 standard. Participants will acquire the knowledge and skills required to conduct a QLASSIC Assessment. Participants will learn to see defects in a building based on QLASSIC quality standards.

The morning session starts with QLASSIC assessment demonstration on how to carry out assessment. Subsequently, participants will be given the QLASSIC tools to carry out the assessment and record on the assessment forms. In the afternoon, participants will experience how to calculate the QLASSIC score for a project. Based on the results, discussion and sharing on how to improve the score will be carried out. A QLASSIC Implementation Plan will be established to help participants to apply on future projects to deliver high QLASSIC Score.

### OBJECTIVES

- Acquire knowledge and skills on QLASSIC assessment;
- Learn how to conduct internal assessment for a project;
- Learn how to improve assessment score for a project.

### CONTENTS

#### Morning Session:

- ✓ Assemble at the select completed project.
- ✓ Demonstration of QLASSIC assessment for architectural works, basic M&E fittings and external works.
- ✓ Conduct hands-on QLASSIC assessment at the selected units by participants.

#### Afternoon Session:

- ✓ Calculate and present QLASSIC score
- ✓ Discuss and share how to improve and achieve high QLASSIC score on projects
- ✓ Establish a QLASSIC Implementation Plan to apply on projects
- ✓ Discussion, Q&A, Closing
